- 1. When the Central Datelligence Group acquired the Mashington Documents Center, it imberited with it a rather vaguely defined agreement with the British for the joint exploitation of the documents material.
- provided for the continued presence of British personnel on a liminer basis. To all intents and purposes, however, the joint operation has continued, and while there is no desire to terminate the British participation in the explaination of captured dominants or to imper their operations in any my, an examination of the Central Intelligence Group charter and reference C indicates that an arrangement should be made with the British theoreby they obtain their naterial through regularly constituted channels.
- 3. The President's letter of Jamuary 22, 1946 does not appear to authorize the Central Intelligence Group to enter into direct means of dissociantion with agencies of foreign governments, and reference C clearly implies that the hund fervices are responsible for the release of classified military information to foreign governments under policies promulgated by the State-MareEsvy Goordinating Committee.

- A. It is therefore recommended that the Director, without actually citing the documents mentioned in perspects 3, inform Brigadier J. D. F. Chapsen, Deputy Director of Filitary Operations and intelligence, British Joint Staff Rission, that British requests for material should be placed in regularly established channels. The Director will no doubt wish to impress upon Brigadier Chapsen the fact that it is not desired to besper the British operation in any may and that although the procedure (outlined in Tab A) may seem alightly cumbersome, it has been arrived at in an effort to comply with policy and administrative restrictions on the Contral Datelligence Group and at the same time to insure a continued flow through established channels of saterial needed by the British. If desirable, it might also be mentioned that our interest in autablishing the procedure is prompted by a desire to neet the continued British need for actorial in the face of their progressive reduction in personnel.
- 5. It is further recommended that ar even as Brigodier Chapman has been informed of the general procedure to be followed, Teb & be presulgated as an instruction to the diffice of Operations and that a sope, <u>Firms the</u> parameter rider, be furnished the British Lisians Unit.
- 6. The provisions of Tab A have been discussed in 6-2 and Office of Neval Intelligence and have received informal approval. Upon proval expises of Tab A should be furnished to the Director, Intelligence Division, For Department Concret Staff and the Director, Office of Saval Intelligence.
